

## MS-H-PRO<sup>A</sup>

### LCD Digital Magnetic Hotplate Stirrer

Three heating models for selecting (fast heating, standard heating and stable heating)

## Features

- Brushless DC motor is maintenance free and explosion-proof
- Digital temperature control up to 340°C
- Digital speed control up to 1500rpm
- Maximum stirring quantity of H<sub>2</sub>O is 20L
- Safety circuits provide overheating protection
- "HOT" warning flashes if plate temperature is above 50°C even when hotplate is turned off
- Wide range timer function from 1 min to 99h 59min (MS-H-Pro<sup>NT</sup> only)
- High-resolution LCD display shows actual temperatures and speed (MS-H-Pro<sup>NT</sup> displays the time)
- External temperature control is possible by connecting the temperature sensor (PT 1000) with accuracy at ±0.2°C
- Work plate with ceramic coating provides good chemical-resistant performance
- Remote function provides PC control and data transmission
- Wide variety of accessories available to choose

## Security

- International safety certification: CE, CTÜVuS, FCC and other product safety cert, certifications issued by TUV Rheinland
- Safety circuits provide overheating protection
- "HOT" warning flashes if the work plate temperature is above 50°C
- Brushless DC motor is maintenance free and expson-proof
- Fully enclosed aluminum alloy housing with good heat dissipation performance and reliable protection capability

External sensor

RS232 connector

Wide range of accessories

Chemical resistance

Brushless DC motor

Specification	MS-H-PROA
Work plate dimension	Ø135mm (5 inch)
Work plate material	stainless steel
Motor type	Brushless DC motor
Stirring positions Max. stirring quantity,	1
Max. rpm	20L
[length]	80mm 100-1500rpm
Speed range	resolution ±1rpm
Speed display	LCD
Temperature display	LCD
tempHereattuinrange Heating liquid	room temperature - 410°C,
control temperature accuracy	±1°C (>100°C)
temperature regulation temperature	420°C
display accuracy	±0.1°C
temperature controller sensor	( accuPraTc1y0±000.2°C )
"Hot" warning	50°C
Data connector	RS232
Protection class	IP21
Timer function	1min to 99h59min
Motor rating output	10W
Power	720W
Heating output	600W 100-120/200-240V,
Voltage, Frequency	50/60Hz
Dimension [WxDxH]	280x160x100mm
Weight	2.8kg
temperature range humidity	5-40°C, 80%RH
